Wedded and Parted**TRUE TOKENS OF ESTEEM**

From the time of the ancients, Jewelry has been the accepted token of genuine esteem. The suitor, the accepted lover, the husband, relatives and friends, who desired to express to the favored one the highest regards, was expected to present Jewelry, and so it is today. The logical gift is a piece of Jewelry. These would make good gifts:

Solid gold rings, watches, bracelets, chains, charms, brooches, stick pins, etc.

Call at your earliest convenience while the stock is at its best. We shall be pleased to show you the goods whether you wish to purchase or not.

A GOOD REASON

Clarksborg People Can Tell You Why It Is So.

Doan's Kidney Pills cure the cause of disease and that is why the cures are always lasting. This remedy strengthens and tones up the kidneys, helping them to drive out of the body the liquid poisons that cause backache, headache and distressing kidney and urinary complaints. Clarksborg people testify to permanent cures.

B. F. Griffin, living at 134 W. Pike street, Clarksborg, W. Va., says: "About three years ago my back commenced to give me a great deal of trouble. It ached during the day and at night would be very lame and sore. I suffered for a long while without getting relief until I saw Doan's Kidney Pills advertised. I procured a box at Wells & Haymaker's drug store and used them as directed. The steady pain soon left me and I have not felt it since. My wife also used Doan's Kidney Pills for kidney trouble and backache and the results were just as satisfactory in her case."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Protect Your Family

It is a solemn fact that thousands of explosions in kitchen hot water systems occur every year in the United States, with more or less serious results. In one little town in Connecticut of 500 inhabitants seven explosions from the same cause occurred last winter.

CAUSE OF EXPLOSION.

It was while watching a tea kettle on a kitchen stove that Watt made the discovery of the expansive force of steam. He noticed, when he closed the spout of the kettle, that when the water reached the boiling point the steam thus generated blew off the cover. If the cover is made fast and there is no other escape an explosion occurs.

PREVENTION.

Do you know that every pressure boiler of any description has a safety valve, so called? Of course you know it and you know the reason why. Simply because steam, so useful when under control, is so dangerous when beyond control. The engineer does not intend to allow his steam to rise beyond a point of safety, but he has an automatic safety valve in case it does. You do not intend to have obstructions of ice, rust or anything else in the supply pipes of your kitchen boiler, but they do get there and cause damage unless you have some kind of a safety appliance.

You do not require the same safety valve that is used on the pressure boiler, but one that is simple, cheap, and not likely to get out of order. The Simplex Safety Valve is so simple that it can be attached in ten minutes' time. It is made of brass and will not rust, and will last as long as the boiler itself, and if the circulation stops, the Simplex Safety Valve automatically opens and all danger of explosion and loss of life is avoided.

The fact that you never have had trouble of the kind described does not preclude the possibility of having it. You may never have lost your house by fire, but you carry fire insurance. Why? Because it is a matter of common knowledge that houses do burn down. The same publicity is not given to the breaking of a water back or boiler as to the burning of a house, and if you do not know personally of the frequency of broken water backs, ask your plumber. Insure against the possibility of an explosion in your home by equipping your hot water system with some kind of safety appliance. The Simplex Safety Valve will give you this insurance. We are sole agents for the Simplex Safety Valve in Clarksborg.
